

Salus University is proud to offer a Post-baccalaureate Program in Health Sciences which will help develop each student's scientific skills and foundational knowledge in basic health professions sciences while also exposing them to patient care experiences in a variety of settings and disciplines.

## POST-BACCALAUREATE IN HEALTH SCIENCES CERTIFICATE PROGRAM

### Why Salus?

- Graduate-level courses designed to strengthen students' background in health sciences (SLP track includes undergraduate courses)
- Faculty and staff dedicated to the education of healthcare professionals
- Assigned a profession-specific mentor who helps the student appreciate the profession they seek, the education involved to obtain a degree in the career and the process of applying to professional school.
- Development of academic skills in preparation for a graduate or professional health science degree
- Development of scientific skills for a foundation in health sciences
- Clinical and patient observation in Salus University's clinical facilities including The Eye Institute, the Pennsylvania Ear Institute and the Speech-Language Institute\*
- Career and academic guidance for future professional success
- Ability to take classes à la carte

\* Only students enrolled full-time are eligible for patient observation

- ☐ Submit a CV/Resume
- ☐ Submit one letter of recommendation

For specific details on the above admissions requirements and deadlines, visit [salus.edu/admissions](https://salus.edu/admissions)

## What is a Post-baccalaureate?

Post-baccalaureate programs are for students who have already completed an undergraduate degree or are working toward a secondary degree from an accredited institution. According to U.S. News and World Report, benefits to completing a Post-baccalaureate program are many - it can provide an opportunity to take required prerequisite courses after undergraduate graduation, boost a competitive GPA or help students become better prepared for admission to a professional, graduate or medical school.

## Speech-Language Pathology (SLP) Track

For students who have completed their undergraduate degrees and are interested in a career in Speech-Language Pathology, the Post-baccalaureate SLP track provides content-specific coursework and aid to improve study skills for academic success.

This track intends to produce qualified students who attain the foundational knowledge and skills of future SLP professionals. This includes applicants to Salus University's Speech-Language Pathology Master's program.

In addition to the interprofessional skills granted in the traditional Post-baccalaureate course of study listed above, the SLP track:

- Offers all prerequisite courses needed to apply to SLP programs
- Provides all clinical observation hours needed to apply to SLP programs
