

The College of Health Sciences, Education and Rehabilitation's post-professional Doctor of Occupational Therapy (OTD) program uniquely positions you as a future leader, advanced clinician, and academic with an emphasis on scholarship and teaching in higher education. Choose a specialty track that meets your needs and interests, including Remedial Vision Rehabilitation and Health and Wellness.

OCCUPATIONAL THERAPY (OTD)

POST-PROFESSIONAL DOCTORATE & ADVANCED SPECIALTY CERTIFICATES

What We Offer:

Learn online: Two five-day courses offered on-campus or remote, all other courses are offered online

Learn didactically and experientially: Attend our beautiful campus in suburban Philadelphia to study face-to-face with our faculty and engage in dynamic hands-on learning activities and community-based experiences during two five-day on-campus courses

Total Credit Hours: 30

Cohort begins every January

***September start also available**

WHY SALUS?

- Both Post-professional occupational therapy doctorate (30 credits) and Advanced Specialty Certificate (12-credits) programs offered
- Distinguished, highly dedicated faculty
- Competitively priced

OTD Program Includes:

- Emphasis on advancing clinical skills, grant writing, research and scholarship dissemination, and teaching in higher education
- Set your own pace (complete in as little as 16 months, 27 months, or up to 5 years)
- Select your advanced specialty track (Health and Wellness or Remedial Vision Rehabilitation)

Choose One Specialty Track:

Remedial Vision Rehabilitation - Pediatrics and Acquired Brain Injury: This track is designed to enable occupational therapists to gain a comprehensive understanding of vision problems prevalent in acquired brain injury and pediatric populations. Students will learn how to screen for the most commonly occurring problems and perform remedial vision rehabilitation for clients with these problems in an ongoing collaboration with an optometrist.

Health and Wellness*: This track is designed to enable occupational therapists from any area of clinical practice to develop advanced/evidence-based expertise in holistic and innovative healthcare skills to assist individuals, groups or populations with or at-risk for chronic illness or disability. Students will be exposed to health assessment and health promotion activities across the life span, global and cultural perspectives, community initiatives and primary care.

**Including Special Focus in Women's Health*

FOR MORE INFORMATION: Contact 800.824.6262 (choose option 1) or visit salus.edu/admissions.

Salus University is accredited by the Middle States Commission on Higher Education (MSCHE). For program specific information about accreditation, visit salus.edu/accreditation.
