

The Pennsylvania College of Optometry (PCO) follows a legacy that began in 1919, when PCO created a four-year degree program that set the standard for all other institutions of optometry that exist today. During our more than a century-long and proud history, PCO has pioneered some of the most influential innovations in post-graduate optometric education worldwide.

DOCTOR OF OPTOMETRY

TRADITIONAL PROGRAM

Why Salus?

- Early hands-on clinical experience and an extensive externship program
- Small group learning experiences
- Program can be enhanced with advanced studies and elective courses and/or a residency program
- The Eye Institute (TEI) and its satellites serve as PCO's clinical teaching facilities where students collaborate with optometrists, ophthalmologists, opticians and optometric technicians
- Newest technology, including a virtual reality lab
