The College of Health Sciences, Education and Rehabilitation offers a 34-month, Master of Science in Orthotics and Prosthetics degree program, designed to give students the foundational knowledge, technical skills, and clinical abilities to excel in the orthotist and prosthetist profession.

ORTHOTICS & PROSTHETICS
MASTER OF SCIENCE

Why Salus?

- A profession that combines problem-solving, creative design, and patient care in a market that demands O&P services
- Curriculum constructed from a holistic perspective with cultural humility and belonging at its core
- State-of-the-art clinical lab facility with dedicated training and learning spaces
- Learn in closely knit cohorts alongside skilled faculty who are board-certified prosthetist-orthotists and leaders in the field
- Interprofessional education opportunities with other Salus degree programs
- An integrated 18-month clinical residency will enable graduates to sit for the National ABC Board exams in both Orthotic and Prosthetic disciplines

ADMISSIONS CHECKLIST

- Complete an application at OPCAS
- Complete a bachelor's degree (minimum overall GPA of 3.0 recommended)
- Complete the prerequisite coursework with a grade of C or higher
- Submit two letters of recommendation
- Shadow a licensed orthotist prosthetist(s) for a minimum of 40 hours (50 hours of fabrication experience recommended but not required)
- Submit GRE exam scores (optional)

For specific details on the above admissions requirements and deadlines, visit salus.edu/admissions
The Master of Science in Orthotics & Prosthetics degree program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the National Commission on Orthotic and Prosthetic Education (NCOPE). The next evaluation of the program is scheduled to occur no later than 2029.

National Commission on Orthotic and Prosthetic Education
330 John Carlyle St., Suite 200, Alexandria, VA 22314, Tel: 703.836.7114

#9 IN U.S. NEWS & WORLD REPORT'S BEST HEALTHCARE SUPPORT JOBS OF 2023

- **What Orthotists and Prosthetists Do:** Orthotists and prosthetists design and fabricate medical supportive devices and measure and fit patients for them.
