

Experience the Impact of the Health Sciences

About Drexel University, Elkins Park Campus

Drexel University's Elkins Park Campus, located in suburban Montgomery County, Pennsylvania, is home to the Pennsylvania College of Optometry along with additional health science, education and rehabilitation degree programs. Situated on a scenic 11.5-acre campus just 25 minutes from University City in Philadelphia, the campus features three academic, clinical and administrative buildings surrounding a picturesque pond in addition to the Hafter Student Community Center.

The Elkins Park Campus programs offer:

- Interprofessional education and early clinical exposure
- Preparation of students for real-world practice
- State-of-the-art teaching laboratories and community-based clinical facilities
- Hands-on learning that fosters collaboration across professions
- Hundreds of participating practice sites across the country and around the world further strengthening students' preparation and building a strong foundation for careers in the health sciences
