Salus University's inaugural Orthotics & Prosthetics class wrapped up its first year of didactic coursework this summer. The program welcomed its second incoming class this fall.

PHOTOGRAPHY BY RYAN BRANDENBERG

“The clinical exposure the Master of Science in Clinical Optometry (MSCO) program offered gave me such great experience that I don’t think I would have been able to get anywhere else. The program provides students with lots of hands-on experience they are missing from just a bachelor’s degree in optometry.”

“As a funder supporting many organizations working in low vision and blindness, I am very aware of the high regard in which Salus graduates are held. Salus is consistently mentioned as the standard by which other programs are measured.”

SUSAN OLIVIO, EXECUTIVE DIRECTOR AND CHIEF EXECUTIVE OFFICER OF THE LAVELLE FUND FOR THE BLIND.

Salus University's Student Academy of Audiology (SAA) participated in the 17th annual Pennsylvania Walk4Hearing and offered complimentary hearing screenings to attendees. This year, Team SAA raised close to \$1,500. Additionally, SAA was recognized for participating at the PA Walk4Hearing for the past 15 years!
