

RESEARCH PARTICIPANTS NEEDED

YOUNG ADULTS (18-35 YEARS OLD)

We are looking to find the best way to test eye teaming and focusing problems occurring after mild traumatic brain injury (mTBI)

Recruiting healthy volunteers AND adults with a diagnosis of concussion/mTBI in the last 12 months

Participants will be compensated \$50 per visit

WHAT & WHERE

- ✓ One study visit for mTBI participants and two study visits for controls
- ✓ Each study visit takes 60-90 minutes and is located at The Eye Institute
- ✓ Visits involve answering questions about your vision and undergoing a series of vision tests
- ✓ For participants who have not had an eye exam in the past year, eye drops will be used
