SENATOR HAYWOOD HOSTED CHECK PRESENTATION AND PRESS CONFERENCE

Montgomery County – September 18, 2019 – State Senator Art Haywood (D-Montgomery/Philadelphia) was joined by president Michael H. Mittelman for a check presentation and remarks today. Salus University received a Redevelopment Assistance Capitol Program (RACP) grant of \$500,000 for educational improvements to the university.

“When classrooms are updated to cater to the learning style of the student body, performance and morale increases,” said Senator Haywood. “I am glad to assist in the educational improvement of Salus University.”

“The grant will enable the University to continue to provide a dynamic, world-class training that allows our students to fully appreciate the intricacies of providing comprehensive and complex patient care in a fully controlled environment,” said University president Dr. Michael H. Mittelman. “They will be better providers having experienced this type of training.”

The check presentation and press conference were held at Salus University and remarks were provided by Senator Haywood and Dr. Mittelman followed by the presentation of a mock check. The grant will allow for the renovation of two lecture style classrooms, construction of a patient assessment simulation lab, and an update to the clinical skills lab.

The Redevelopment Assistance Capitol Program is a Commonwealth grant administered by the Office of the Budget for the construction and acquisition of regional cultural educational, economic, historical, and recreational improvement projects.
